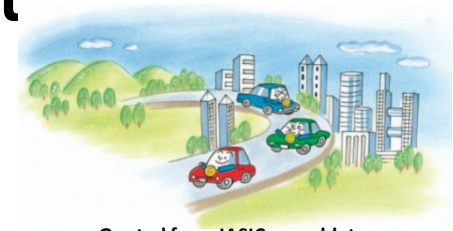
7. The way toward ideal world

Automobile industry's mission

Maximize positive aspect

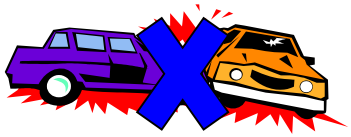
- Convenience
- Comfort

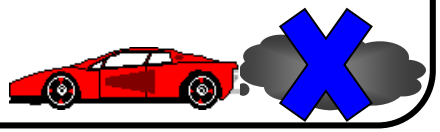


Quoted from JASIC pamphlet

Minimize negative aspect

- Traffic accident
- Environmental pollution





Contribution to society
-Brilliant future-

JAPIA wants to contribute to achieve the brilliant future as auto-part industries.

JAPIA has advocated *"Imagine world"*.

Imagine there's no h
it's easy if you try
no hell below us
above up only sky
imagine all the people
living for today...

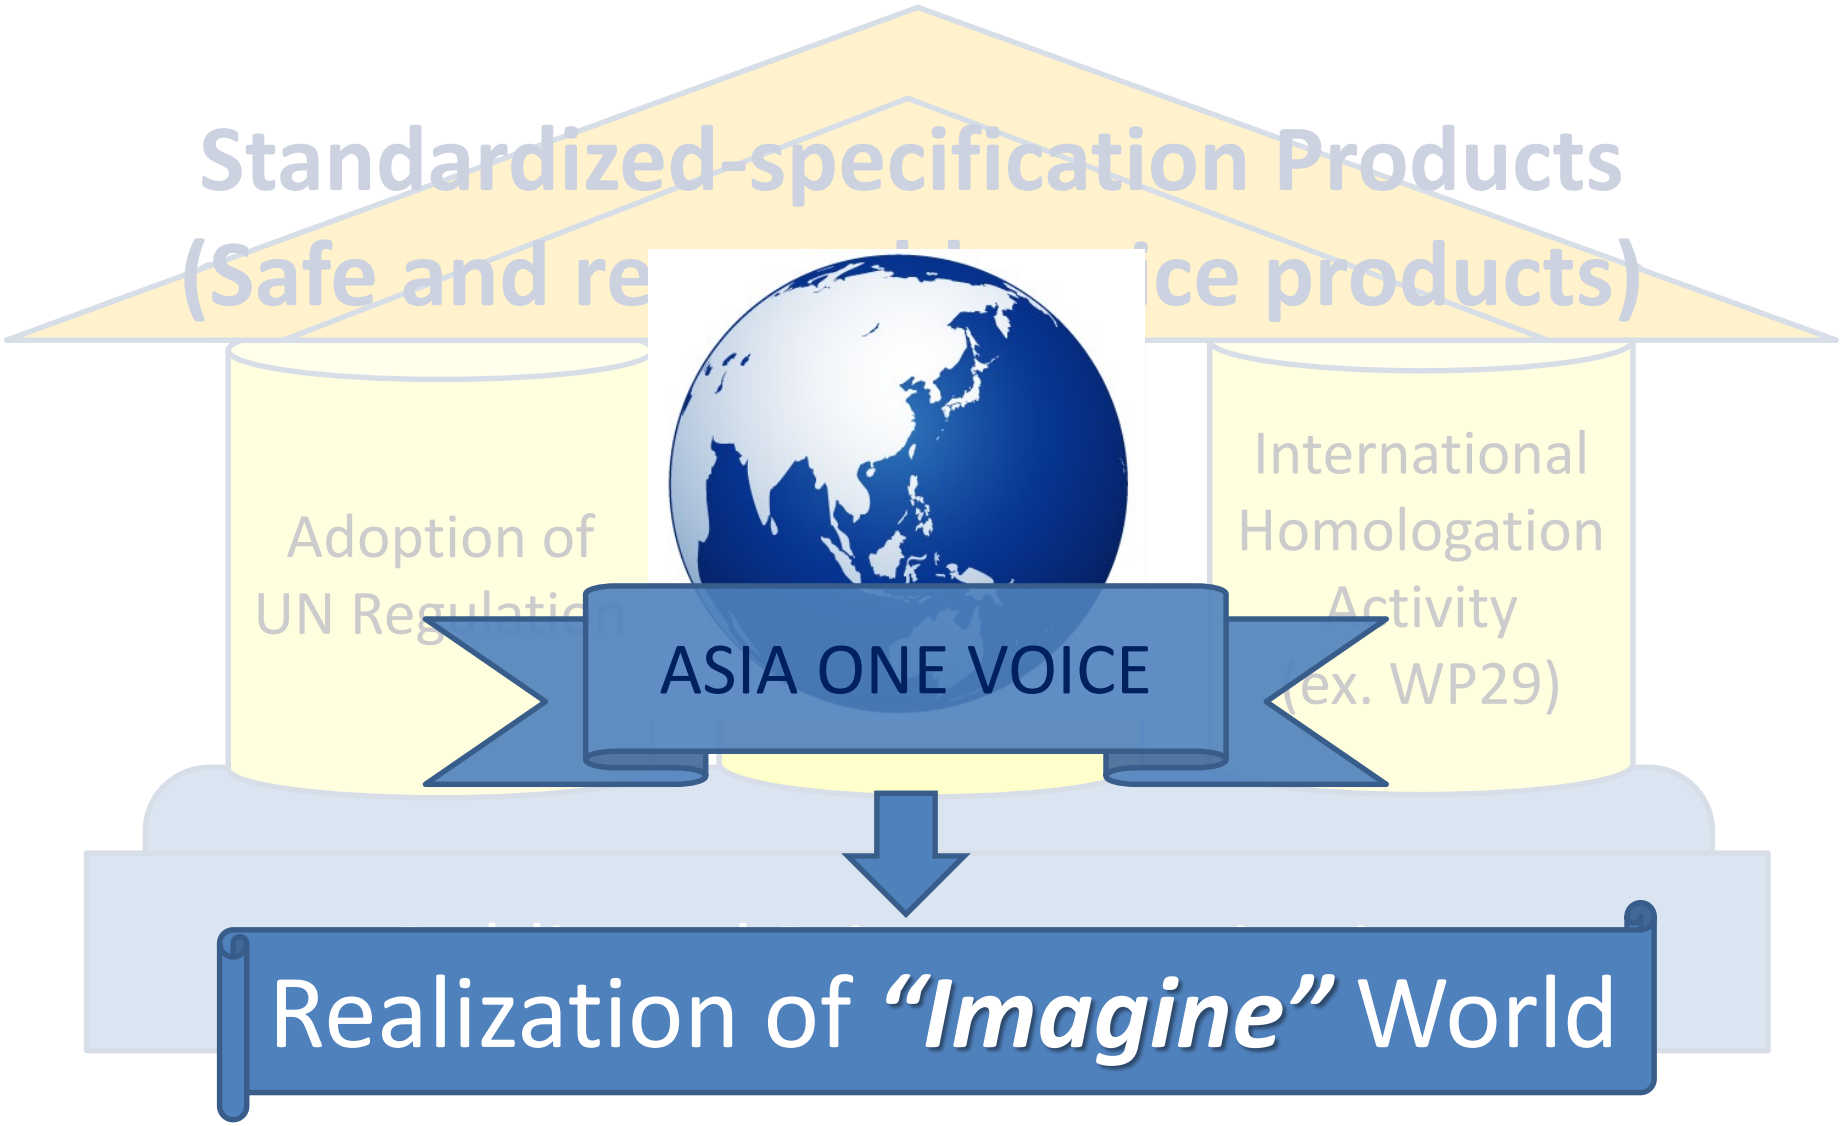
~John Lennon~

ugine no possessions
onder if you can
no need for greed or hunger
a brotherhood of man
Imagine all the people
sharing all the world...

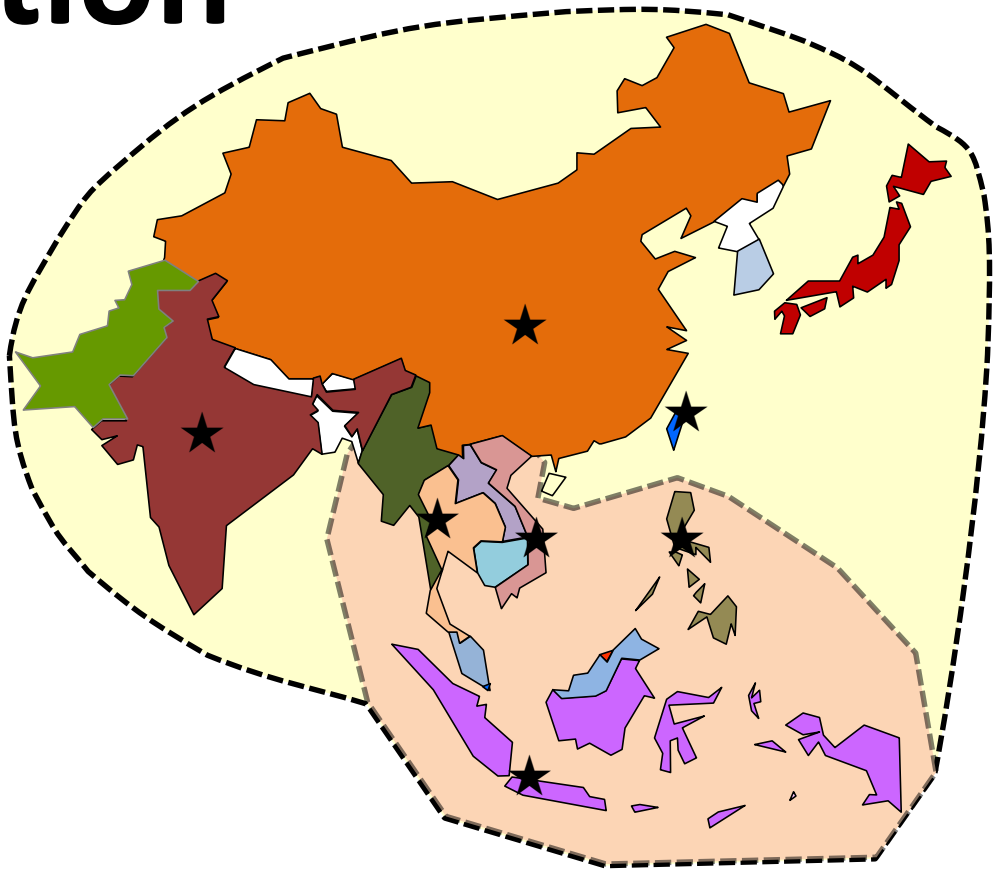
Imagine there's no countries
it isn't hard to do
nothing to kill or die for
no religion too
imagine life in peace...

you may say I'm a dreamer
but I'm not the only one
I hope someday you'll join us
and ***the world will be as one***

What is ”*Imagine world*”?

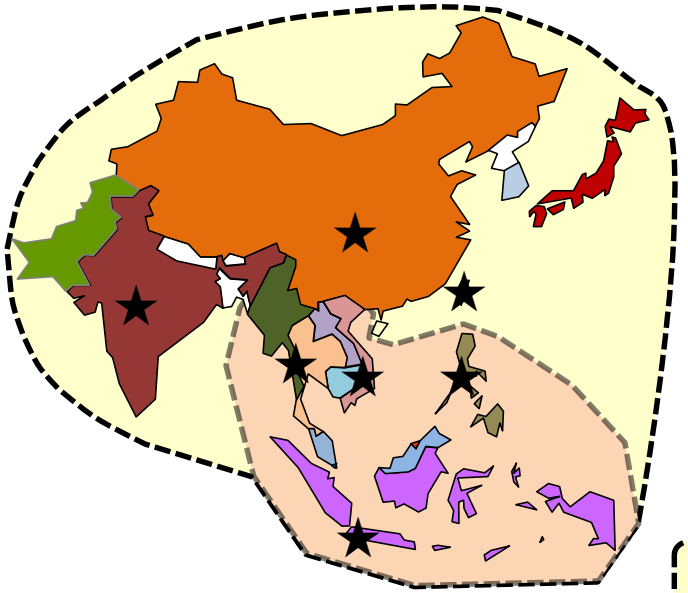


Question

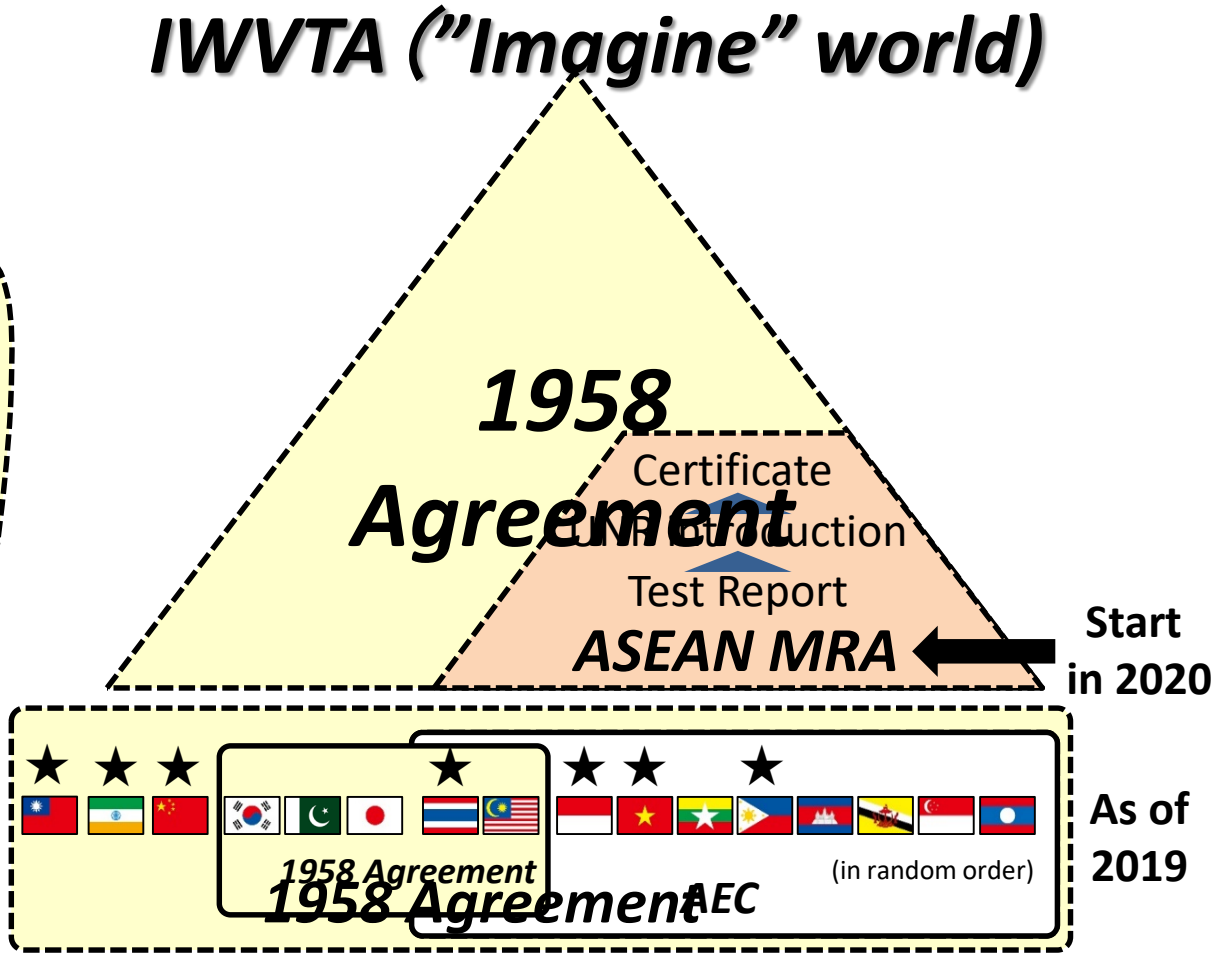


What is this animation ?

Answer



★ National approval system

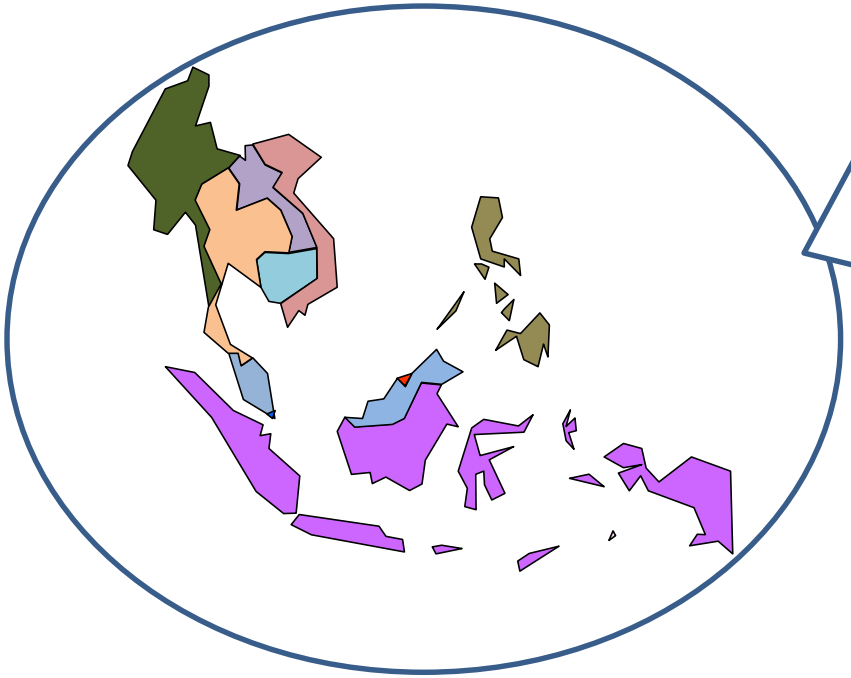


ASEAN MRA is a first step toward *"Imagine world"*

→ JAPIA is happy with this progress!

4. Concerns toward smooth launch of ASEAN MRA

JAPIA expects smooth launch of ASEAN MRA. However we feel uneasy toward the launch.



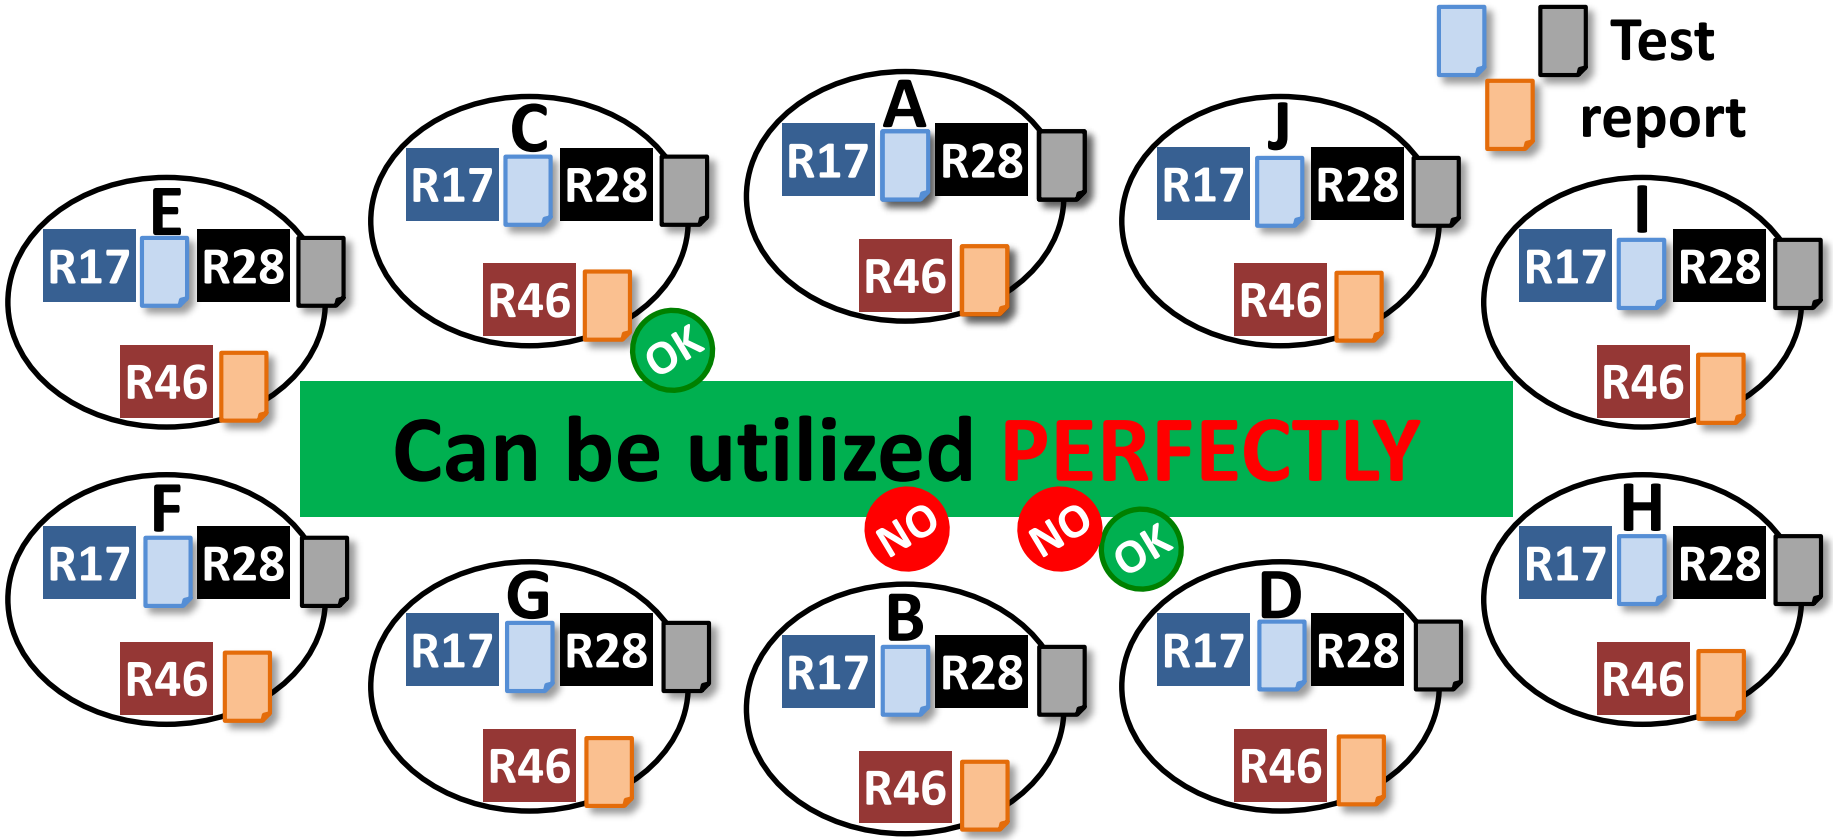
Concerns of ASEAN MRA

- ✓ Introduction timing
- ✓ Different interpretation
- ✓ Test report description

Could you allow us to share our knowledge from experiences?

Introduction timing

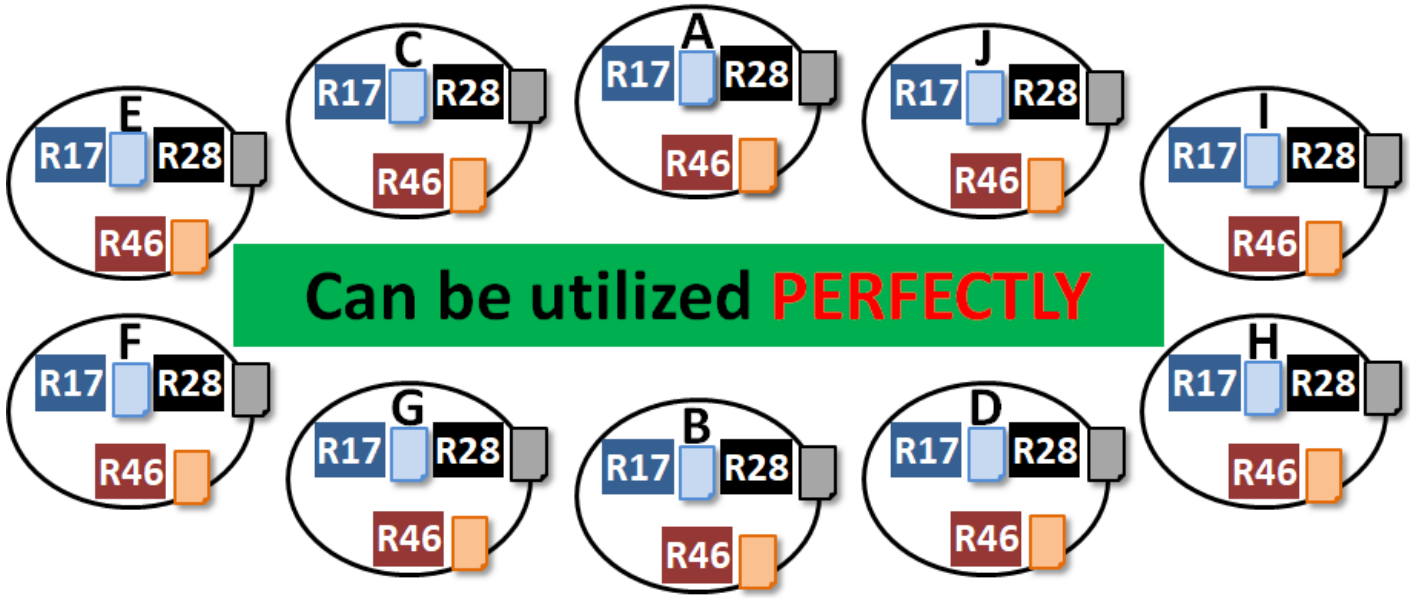
2020: Country A & B introduce some UNRs of phase 1.
2021: Country C & D introduce some UNRs of phase 1.
202X: 10 countries introduce same UNRs of phase1.



Effectiveness of MRA test report is limited until 202X.

Suggestion from JAPIA

Introduction timing



Effectiveness of MRA test report is limited until 202X.

Suggestion

-ASEAN MRA had better be alternative until 10 countries' introduction.

-AAC should set target date, and disclose the progress to public.

5.2 Different interpretation

Example:UNR46(Mirror)

Back side configuration is different.

Cover Shape

Turn lamp

Some technical services may judge TYPE should be separated.

Suggestion

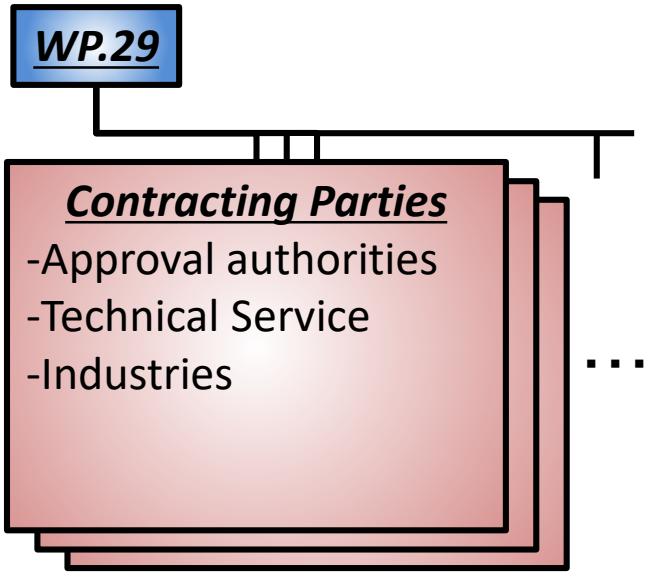
Working Group among technical services under AAC would be necessary to share common interpretation.
(refer to schedule 6 in 1958 Agreement)

(Reference) What is the “Schedule 6”?

Schedule 6 under 1958 Agreement

Procedures for resolving interpretation issues

Organization



1. Prior to UN type approval

Approval authorities coordinate the information from applicants and/or other Approval authorities.

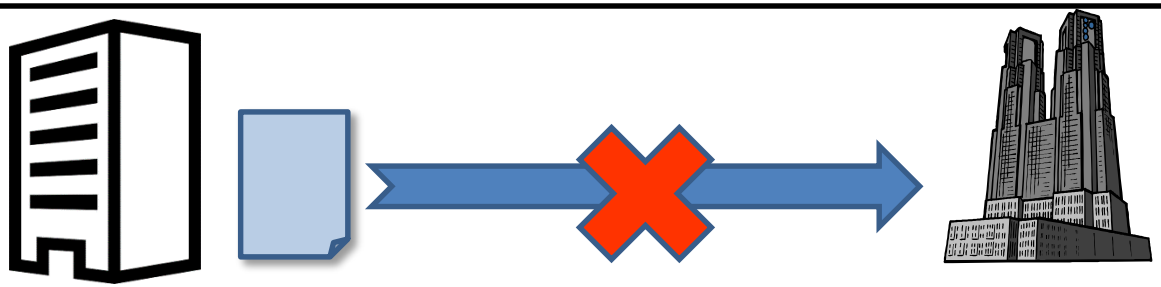
2. Subsequent to UN type approval

Coordination between Contracting Parties.

3. Arbitration process

Discussion in WP.29.

5.3 Test report description



Test report issued by technical services in A country

B country

It is hard for B country to evaluate if A country's test report complies with B country's national regulation.

Why?

- B country can not understand A country's language.
- Description is not same.
- Format is not same as B country's.

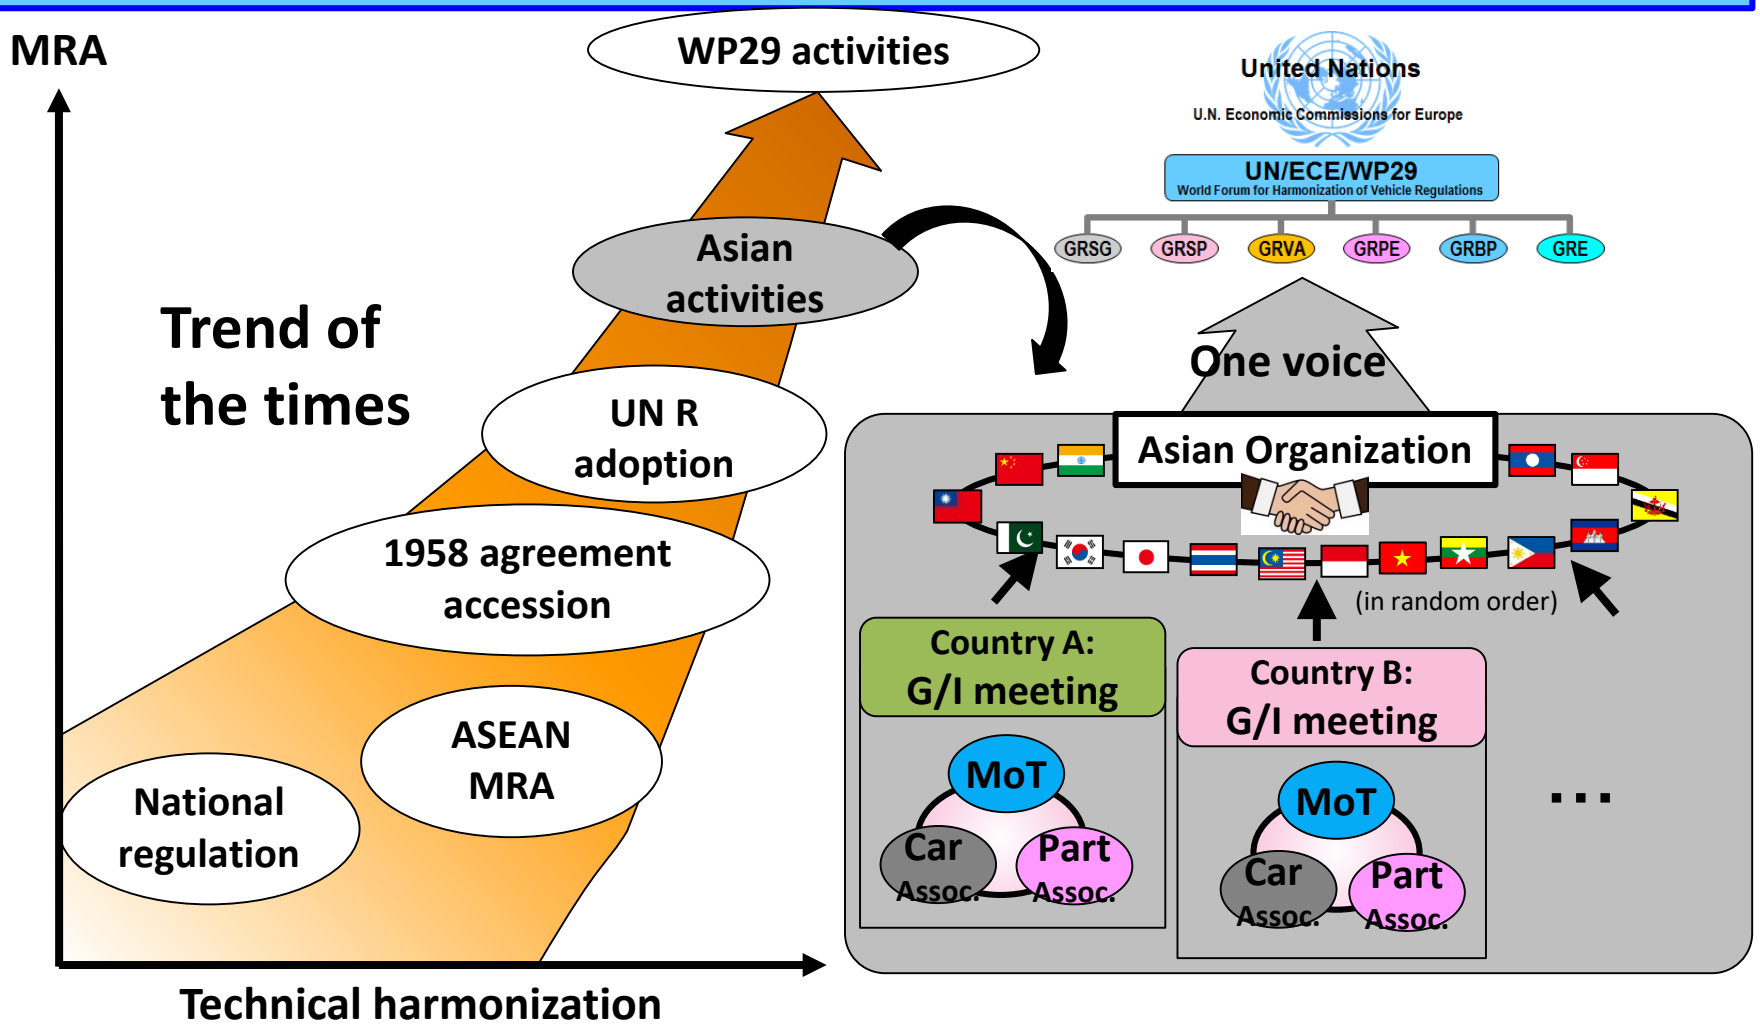
Suggestion

Common rules for test report would be necessary.

- Common language -Common description - Common format

6. Future image of activity in Asia by JAPIA

-Asian one voice-



Asian one voice will bring us more merits!

7. The way toward ideal world

Imagine there's no heaven
it's easy if you try
no hell below us
above up only sky
imagine all the people
living for today...

Imagine no possessions
I wonder if you can
no need for greed or hunger
a brotherhood of man
Imagine all the people
sharing all the world...

Thank You for Your Attention

"Imagine" again ～John Lennon～

Imagine there's no countries
it isn't hard to do
nothing to kill or die for
no religion too
imagine life in peace...

you may say I'm a dreamer
but I'm not the only one
I hope someday you'll join us
and ***the world will be as one***
